## PROFILE

I am currently seeking a full-time position as a Web Developer, Fullstack Developer, or Junior Developer. With a solid foundation in web development and hands-on experience from academic projects, I am eager to apply my skills and contribute to a dynamic and growing team. I am also passionate about expanding my knowledge and continuously learning new technologies to enhance my professional development.

## WORK EXPERIENCE

### Internship

Engineering Department Suranaree University of Technology |  
November 2024 - February 2025

- Developed a loan and repair request system using PHP, incorporating QR code generation for effective asset tracking. The system features SMTP-based email notifications and an administrative panel with role-based access control (RBAC). Additionally, I supported studio operations and equipment management for communication arts students.

### Internship
